

Do You Know Dewey?

Hey, Kids! Learn about the Dewey Decimal System with this fun puzzle.

The Dewey Decimal System helps you find the books you want. Nonfiction books are shelved in subject order by number, from 0 to 999. For each number clue below, walk to the juvenile nonfiction shelf to find out the kinds of books that are there. Write your answers in the boxes to complete the puzzle. Here's an example: j523.3 = moon

- | | |
|-------------|--------------|
